

I urge you not to weaken Wisconsin's No-Call list in any way. We get enough junk mail from banks and other businesses soliciting us -- we do not need our privacy interrupted by their phone calls! If we had wanted to do business with them, we would have. If we change banks, we don't need to be harassed by the one we quit doing business with. Our state's no-call list has been a blessing for us since the day we signed up and we'd like to keep it strong. We have put both our home and our northwoods cabin on the list. Please put citizens first. Life is complicated enough.
